SYSTEMS ENGINEER | JUNIOR WEB & SOFTWARE DEVELOPER | IT & CYBERSECURITY ANALYST

PROFESSIONAL SUMMARY

Systems Engineer graduated from Universidad de Medellín with advanced English proficiency (ILAC Level 17 - Merit Certification). Hands-on experience in web development and administration for corporate platforms (foxyabogados.com and hospitality systems), corporate cybersecurity, and Identity and Access Management (IAM), handling 20 to 50 user access requests daily. Proficient in C#, JavaScript, HTML/CSS, and Android mobile development. Focused on web performance optimization, software quality, and IT infrastructure security.

WORK EXPERIENCE

WEB DEVELOPER & ADMINISTRATOR

Fox Abogados & Consultores | Cartagena, Colombia

2025 - Present

- Designed, developed, and maintained the firm's official web portal (foxyabogados.com), enhancing performance, accessibility, and search engine optimization (SEO).
- Implemented responsive frontend interfaces using HTML5, CSS3, and JavaScript to deliver an optimal user experience across devices.
- Managed domain infrastructure, business email accounts, hosting servers, and digital communication tools for the firm.
- Improved page load speed and Increased organic site traffic.

CYBERSECURITY & ACCESS CONTROL ANALYST

Arus S.A. | Medellín, Colombia

2023 - 2024

- Managed the Identity and Access Management (IAM) system, processing 20 to 50 daily user access requests following strict enterprise security protocols.
- Coordinated access approvals directly with department directors and technical specialists, reducing ticket response times.
- Evaluated security risks and implemented cybersecurity policies to protect sensitive corporate data and ensure compliance.
- Performed vulnerability scans and server monitoring in coordination with the IT infrastructure team.

IT / CYBERSECURITY INTERN

Arus S.A. | Medellín, Colombia

2023

- Supported daily IT security operations by auditing user accounts, permissions, and access logs.
- Documented internal workflows and security protocols to strengthen the company's access control framework.

WEB ADMINISTRATOR & DEVELOPER

Hotel Casa Baluarte | Cartagena, Colombia

2017 - 2020

- Managed and updated the institutional website and online booking engine, ensuring high uptime and system availability.
- Implemented frontend UI enhancements and content updates using HTML, CSS, and JavaScript.
